**Appetite Changes**

Appetite changes and difficulty eating are common issues that result from cancer treatments. Try these tips to keep you nourished during your cancer journey.

**TRY THIS**

- **Snack often.** Eat small snacks throughout the day instead of three large meals.
- **Eat bland foods.** Avoid foods with strong smells and flavors.
- **Try liquid meals.** Have smoothies, shakes, or other types of liquid meals.

**Chemo-Brain and Memory Problems**

Many people with cancer and in cancer treatment have trouble thinking, remembering, and concentrating. Try these tips to help you manage mental cloudiness or "chemo-brain."

**TRY THIS**

- **Follow a routine.** Stay organized with a planner or calendar.
- **Leave notes for yourself.** Post reminder notes where you’ll see them, or set alerts on your phone.

**Fatigue**

Fatigue is a very common side effect of cancer treatment that can disrupt your ability to do everyday things. Here’s what you can do to help deal with fatigue.

**TRY THIS**

- **Ask for help.** Reach out to friends and family to help you with chores and errands.
- **Set priorities.** Identify the most important tasks each day, and then focus your energy on those tasks.
- **Keep a schedule.** Wake up, go to bed, and rest at the same times each day.
- **Be active.** Get an energy boost with exercise, even if it’s only for a few minutes.

**Hair Loss**

Cancer patients tend to lose hair when they receive certain chemotherapy drugs or radiation therapy. You can prepare for and cope with hair loss by following these tips.

**TRY THIS**

- **Protect your skin.** Use sunscreen or wear a head cover to avoid sun exposure.
- **Try gentle products.** Use shampoos, hairbrushes, and pillowcases that are easy on your scalp and hair.
- **Keep your hair short.** Have your hair cut short to make it look thicker.

Infections

Infections begin when germs enter the body and cause harm. Cancer and certain treatments can increase your risk of getting an infection, but you can protect yourself.

**TRY THIS**

- **Wash your hands.** Keep your hands clean, especially before eating.
- **Take care of cuts, scrapes, and surgery wounds.** Clean broken skin and protect it with a bandage.
- **Avoid germs.** Stay away from people who are sick or have a cold. Avoid crowds. Make sure your food is clean and thoroughly cooked.

Mouth, Gum, Throat Problems

During cancer treatment, some patients may get painful sores in their mouth and throat. Other problems can also affect the mouth and throat that cause unwanted symptoms.

**TRY THIS**

- **Eat soft foods.** Choose foods that are soft, wet, and easy to swallow.
- **Try liquid meals.** Have smoothies, shakes, or other types of liquid meals.

Nausea and Vomiting

Cancer treatment causes nausea and vomiting. Controlling these symptoms will help you to feel better and prevent more serious problems such as malnutrition and dehydration.

**TRY THIS**

- **Stay hydrated.** Drink fluids and eat foods with lots of water, like fruits or soup.
- **Fast before and after treatment.** Don’t eat for one hour before and after treatment.
- **Avoid foods that irritate your mouth.** Stay away from foods that are crunchy, salty, spicy, or sugary. Also avoid alcohol and tobacco.

Sexual Problems for Men

Many cancer treatments and some types of cancer can cause sexual side effects. You can get help if you are having sexual problems after cancer treatment.

**TRY THIS**

- **Talk with your health care team.** Ask about sexual problems you may have during and after treatment.
- **Talk to your partner.** Communication is an important part of sexual relationships.

Tingling, Burning, and Numbness (Neuropathy)

Some cancer treatments and tumors can damage peripheral nerves, which are nerves that are away from the brain and spinal cord. Damage to these nerves is known as neuropathy.

**TRY THIS**

- **Protect your hands and feet.** Wear gloves when you clean, work outdoors, or do repairs.
- **Stay warm.** Keep your hands and feet warm and covered in cold weather.
- **Be careful at night.** Avoid injuries by using a night light or flashlight.

Healthy Eating

Eating well can help you feel and live better during and after treatment. Here are some tips to help you.

**TRY THIS**

- **Work with a specialist.** Ask a dietitian to help you create a nutritious, balanced eating plan.
- **Shop smart.** Stock your kitchen with healthy foods.
- **Practice mindful eating.** Don’t get too hungry before you eat. Stop eating when you’re full.

Health Care Team

Cancer treatment typically requires a team of health care professionals, including doctors, nurses, and other staff who help take care of you before, during, and after treatment.

**TRY THIS**

- **Establish good communication.** Take notes and bring someone with you to appointments.
- **Build a relationship.** Let your health care team know what you expect from them.
- **Be prepared.** Write down questions ahead of appointments.
- **Consider a second opinion.** Ask your doctor for a referral and to share your medical records.
