

Health Care Team

Cancer treatment typically requires a team of health care professionals, including doctors, nurses, and other staff who help take care of you before, during, and after treatment.

TRY THIS

Establish good communication. Prepare questions, state your expectations, take notes, take notes and bring someone with you to appointments.

Consider a second opinion. Ask your doctor for a referral and to share your medical records.

Prepare for follow-up care. Connect with your primary care doctor and understand what kinds of procedures and screenings you may need.
